

CIBERMAC 20

SOLVENT-RICH DEGREASER DETERGENT

DESCRIPTION

Detergent with innovative formulation for professional use, dilutable in water, suitable for deep cleaning of surfaces. CIBERMAC 20 effectively dissolves greasy substances, oils, trampling dirt, atmospheric dirt, smoke blackening, food residues, residues from printing ink. Our detergent cleans thoroughly without damaging stone surfaces and it is particularly suitable for matt/rough surfaces, in cement, porcelain stoneware, marble, granite, terracotta and natural stones. CIBERMAC 20 can be used manually or with floor cleaning or scrubbing machines, and it can be used in water depending on the needs and equipment, it is a controlled foam product.

APPLICATION

Prepare a solution of the product at the recommended dilutions depending on the use, then spray the solution on the surface to be cleaned and leave to act for a few minutes. Wash the surface using a single brush with felt or bristles, remove the dirt removed with a liquid vacuum cleaner. Rinse with water or with a damp cloth, in the case of use with scrubbing machines or scrubber driers or high-pressure washers follow the dilutions indicated below.

Dilution

- Light cleaning - Dilute 1 part of the product with 10 parts of water (1:10).
- Intermediate cleaning - Dilute 1 part of the product with 5 parts of water (1:5).
- Concentrated cleaning - Dilute 1 part of the product with 1 part of water (1:1).
- For a stronger action, apply the pure product directly on the surface.

RECOMMENDATIONS

The product is aggressive in contact with the skin, it is recommended to wear protective clothing and remove those wet from the product. The product cannot stand freezing, store it in well-closed and well-protected places.

NOTE

Our indications and technical advice, both given by voice or in writing, refer to our personal best knowledge and do not include any guarantee against third parties.

We kindly invite you to adapt our products to your needs and working conditions: methods of use and processing techniques are exclusively under the responsibility of the buyer.

As far as we are concerned, we guarantee constant quality in our supplies within our general conditions of sale. Should you verify our liability for any type of damage, the liability is limited solely and exclusively to the value of the goods supplied by us and used by you.

YIELD

The yield varies from 5 to 50 m² of surface with 1 L of product.

ALWAYS CARRY OUT TESTS BEFORE USE

Anyone, before use, needs to know the characteristics of our products by reading the label affixed to each package, the technical data sheet and the safety data sheet compliant with Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adjustments) and of Regulation (EU) 2015/830, or eventually by contacting us directly. However, we recommend to strictly follow the instructions given or received.

We also recommend to carry out a preventive sampling to detect any unexpected results with respect to the method of application or the quality of the result. Keep the package well sealed and out of the reach of children. Aerate the working environment well during and also after the application of the product.

Do not eat or drink when using this product.
