

PLATINUM ACQUA

WATER-BASED WATER-OIL REPELLENT ANTI-STAIN PROTECTIVE

DESCRIPTION

Stain-resistant, anti-writing, anti-rising, anti-mould and anti-smog. High quality product that represents the synthesis of our knowledge as regards the use of the best raw materials present currently on the market and their use in refined formulations through daily use on construction sites, in Italy and abroad, from our specialized staff. Being a highly professional product, it is particularly suitable for professionals of the sector and especially for companies operating in the protective treatment sector. PLATINUM ACQUA is a water-based stain-resistant product suitable for the protection and the consolidation of stone surfaces, in addition to maintaining the protective characteristics of solvent-based products. PLATINUM ACQUA, for its compatibility with water, significantly reduces intervention times and related costs, just think of the waiting times caused by prolonged drying surfaces after washing, before treatment. Despite its characteristics of total compatibility with water, do not apply it on wet supports that, while not nullifying the effectiveness of the treatment, would make it less valid as held over time. PLATINUM ACQUA does not create problems in the case of an overlap with finishing products based on waxes or water-based resins. The product can be applied also on glossy marble, granite, beole, volcanic stones, basalts and in general on all the supports that have a poor absorption. It can be used for flooring, cladding, facades, ventilated walls, etc. The application must be done at support saturation checking its drying or with two hands crossed to a distance of one hour between them. Suitable for all stone surfaces.

YIELD

The yield varies according to the conformation of stone materials and their finishing.

- Very porous surfaces: 3-6 m²/L
- Medium porous surfaces: 7-15 m²/L
- Low porous surfaces: 20-30 m²/L
- Very compact surfaces: 30-40 m²/L

*** Product certificated for safe food contact**

ALWAYS CARRY OUT TESTS BEFORE USE

Anyone, before use, needs to know the characteristics of our products by reading the label affixed to each package, the technical data sheet and the safety data sheet compliant with Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adjustments) and of Regulation (EU) 2015/830, or eventually by contacting us directly. However, we recommend to strictly follow the instructions given or received.

We also recommend to carry out a preventive sampling to detect any unexpected results with respect to the method of application or the quality of the result. Keep the package well sealed and out of the reach of children. Aerate the working environment well during and also after the application of the product. Do not eat or drink when using this product.

APPLICATION

PLATINUM ACQUA is applied with normal treatment methods that may be those by brush, spray, roller, cloth, rather than personal methods honed by professionals in their operational experiences that also vary depending on the type of support and finish you want to get.

RECOMMENDATIONS

PLATINUM ACQUA, properly diluted, can be used periodically (every 6/12 months) to regenerate the treatment initial mainly for high-use surfaces such as kitchen tops, walls and showers. For this use dilute the product to 20% in water and apply it manually with a cotton cloth. It leaves no residue. The product cannot stand freezing, store it in closed and well protected places at a temperature not lower than 10°C.

Always have suitable means of personal protection especially for the eyes and hands. For routine cleaning avoid the use of products with alcohol or solvents.

NOTE

Our indications and technical advice, both given by voice or in writing, refer to our personal best knowledge and do not include any guarantee against third parties. We kindly invite you to adapt our products to your needs and working conditions: methods of use and processing techniques are exclusively under the responsibility of the buyer.

As far as we are concerned, we guarantee constant quality in our supplies within our general conditions of sale. Should you verify our liability for any type of damage, the liability is limited solely and exclusively to the value of the goods supplied by us and used by you.
