UNIVERSTAIN

STAIN REMOVER OF ORGANIC SUBSTANCES

DESCRIPTION

UNIVERSTAIN is a water-based mixture of oxidizing agents and absorbent fillers suitable for the removal of stains from coffee, wine, nicotine, leaves, flowers, markers and organic residues of various kinds from tables, kitchen tops, bar tops, floors, in marble and granite, terracotta and concrete agglomerates.

With UNIVERSTAIN you get a quick elimination of fresh or superficial stains even with a single application; for old or very deep stains are required applications repeated.

The product can be applied on all surfaces with a glossy finish, smooth, split, sandblasted, flamed, bush-hammered, it does not leave halos and does not affect the finish.

YIELD

It is not possible to indicate the yield as there could be various problems you could face.

APPLICATION

Before applying UNIVERSTAIN, clean the part to be removed, in order to remove any superficial residues, with CIBERMAC diluted in 10% water.

Shake the bottle of UNIVERSTAIN vigorously to homogenize the product contained, then pour on the stain to be removed the quantity necessary to cover it completely; let it act for about 30 minutes, then remove the residue using a damp cloth.

Repeat the operation until the complete removal of the stain. Do not leave the product in contact with the stone surface for more than an hour.

ALWAYS CARRY OUT TESTS BEFORE USE

Anyone, before use, needs to know the characteristics of our products by reading the label affixed to each package, the technical data sheet and the safety data sheet compliant with Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adjustments) and of Regulation (EU) 2015/830, or eventually by contacting us directly. However, we recommend to strictly follow the instructions given or received.

We also recommend to carry out a preventive sampling to detect any unexpected results with respect to the method of application or the quality of the result. Keep the package well sealed and out of the reach of children. Aerate the working environment well during and also after the application of the product.

Do not eat or drink when using this product.

RECOMMENDATIONS

The product cannot stand freezing, store it in well-closed and well-protected places, at a temperature not lower than 10 °C. Always protect yourself with mask, gloves and protective clothing.

NOTE

Our indications and technical advice, both given by voice or in writing, refer to our personal best knowledge and do not include any guarantee against third parties.

We kindly invite you to adapt our products to your needs and working conditions: methods of use and processing techniques are exclusively under the responsibility of the buyer.

As far as we are concerned, we guarantee constant quality in our supplies within our general conditions of sale. Should you verify our liability for any type of damage, the liability is limited solely and exclusively to the value of the goods supplied by us and used by you.
